NEW BOOK BY DISTINGUISHED AUTHOR DR. AMAAL TOKARS:

# AMERICA & IRAQ: *Seduced By Fear*

DISCOVER FOR YOURSELF HOW THE AGE OF INFORMATION  
HAS MORPHED INTO A SEASON OF HYPED REALITIES

Today's global culture expresses its broad identity with the inexhaustible use of images, print media, and a virtual connection to its citizens, spun country by country. Unspinning spin is the average citizen's route to truth. But, it takes energy and the will to know.

As the world prepares to enter one of its most serious wars in history, it is most crucial for American citizens to be able to obtain information and understand issues. It is through **Textual Imagery**, information and communication filtered to us second by second, that most American people shape their beliefs and opinions simply by virtue of what they have read, heard or have been shown.

In her upcoming book, *America & Iraq: Seduced by Fear*, Dr. Amaal Tokars takes you on a journey before 9-11 and after, demonstrating why **the average citizen should have been prepared for war** and how the notion of our freedom has been relegated to a diminished voice.

Dr. Tokars guides us toward the process of becoming an **Organic Citizenry** by **learning how to discern truth with clarity and discover where to go to acquire the facts, renewing our authentic voice and true freedom**. Dr. Tokars challenges her readers to be *Organic Citizens*, to commit themselves to decipher and challenge all *Textual Imagery*—to *think, question, act, and participate*. Dr. Tokars gives us an intriguing analysis and a challenge to live our lives as better citizens of the world.

## IN THIS BOOK YOU WILL LEARN:

- Without knowledge citizens do not have genuine choice, and without choice, there is no freedom.
- Groups that use misinformation to shut out the knowledge of other groups isolate themselves and isolate those they claim to inform.
- Those who have been misinformed rather than educated about other cultures remain static in their own contribution to civil society.
- Fear-producing alerts about other countries precede every war.
